Proceedings of the Punjab Government in the Local Government (Small Towns) Department, No. 2907-Bds.-37/35223, dated the 13th October, 1937.

READ—

The Annual Administration Reports on Small Towns for the year 1935-36.

The number of Small Towns at the close of the previous year was 109. Two new Small Towns of Sohna and Farrukhnagar (Gurgaon District) were established during the year and the Town of Taunsa (Dera Ghazi Khan District) was abolished. The Town Committees of Hafizabad (Gujranwala District), Chakwal (Jhelum District) and Jaranwala (Lyallpur District) were converted into second class Municipalities. Thus the number of Small Towns at the end of the year was 107. The Town Committees of Miani in the Hoshiarpur District and Jatoi in the Muzaffargarh District remained under suspension. The Town Committee of Anandpur (Hoshiarpur District) which had been under suspension was converted into a Notified Area Committee towards the end of the year.

The total population of the Small Town Areas was 469,643 and the number of members was 678, as against the previous year's figures of 500,177 and 699, respectively. The decrease is due to a fall in the number of Town Committees.

Of the 678 members, 537 were elected and 141 nominated, of whom 91 were non-officials. All the Presidents of the Town Committees were elected, 31 of them being officials. Elections were held during the year for 111 seats, of which 78 were contested. The contests were generally keen. At Kallurkot (Mianwali) 2 out of the 4 seats were contested and the percentage of voters polling at the election was 91. Similarly, at Mandi Dabhwali (Hissar), 3 out of the 4 seats were contested and 85.6 per cent. of the voters recorded their votes. In one ward, where the contest was particularly keen, the percentage was 90.2 and the defeated candidate filed an election petition. The elections were conducted peacefully and no instance of personation or intimidation came to notice. With a few exceptions the Committees held the prescribed number of meetings and the attendance of the members was generally satisfactory, but some of the Committees did not fare well in this behalf, with the result that the percentage of meetings adjourned for want of quorum is 7 for the province.

2. Fresh general orders under the various clauses of section 35 of the Small Towns Act were framed by 32 Town Committees as against 27 during 1934-35. The

General and Special orders

Town Committee of Budhlada is reported to have failed to enforce adequately the general orders under clauses (ii) and (m) of section 35 in respect of encroachments. The district reports of Rohtak, Gurgaon and Ambala have not given full information on this subject. The powers to issue and enforce general orders were adequately used by the Town Committees in the districts of the Jullundur and Lahore Divisions, but the reports of the Deputy Commissioners, Gurdaspur and Sheikhpura, reveal some laxity. In the former district general orders regulating the sale of articles of food is not properly enforced and in the latter general orders are said to be "mostly a dead letter", especially those relating to the licensing of premises for the manufacture or preparation for sale of articles of food and drink. It is hoped that the district officers will take early steps to improve this sad state of affairs. General orders were also not adequately enforced by Committees in the Shahpur District and in the districts of the Multan Division generally. The Commissioner remarks that "a few Town Committees did something to enforce their general orders relating to building operations, control of food supplies and regulation of dangerous and offensive trades, but otherwise general orders once made were on the whole forgotten by the Committees and ignored with impunity by the public". This has been read with concern and the Punjab Government hope that the district officers concerned will draw the attention of the Committees in their respective dis-

The number of special orders issued during the year under section 35 of the Act was 606, as compared with 646 in the previous year, of whom 81 were issued alone by Kot Adu (Muzaffargarh District) and 78 by Kahrar (Multan District) Town Committees. The number of persons convicted for breach of general and special orders were 356 and of those allowed to compound such offences was 608 as against 268 and 539, respectively, during the previous year. The Town Committees responsible for the largest number of prosecutions are Daska (90), Dhariwal (43), Shahdara (32), and Gujar Khan (28). The reports indicate that the power to use special orders were not abused in any case.

3. The income for all Small Towns for the year under report was

Rs. 7,95,866, as against Rs. 9,19,917 for the year 1934-35.

Income. There is a decrease under all heads of income except licence fees, sale proceeds and fines. The recoverable arrears (Rs. 2,29,023) at the close of the year were also less than those outstanding at the end of the previous year, namely Rs. 2,40,614. This considerable fall in total income must be attributed to the conversion of the prosperous Town Committees of Hafizabad, Chakwal and Jaranwala, into second class Municipalities, which were alone responsible for a total increase in income of Rs. 1,40,537 in the year previous. The incidence per head of population of taxation and fees shows considerable variation, the highest being in the case of Sillanwali in the Shahpur District (Rs. 7-6 10), and the lowest in the case of Dand in the Sialkot district (Rs. 0-1-9). Barring a few complaints of unfair assessment of rates and taxes, assessment was generally made fairly but the task of recovery continues to be an uphill one.

Although recoverable arrears of taxes and rents at the close of the year under report shows a slight decrease of about Rs. 11,000 as compared with the previous year, there are only a few Town Committees in each Division which can boast of prompt and up-to-date recovery of their dues and sound financial position. Arrears represent a considerable percentage of the yearly demand in a number of cases and in consequence the Committees concerned are confronted with financial difficulties. In certain cases reported from the Hoshiarpur and Shahpur Districts the Committees concerned were unable to pay their staff for several months during the year. The desirability of timely and fair assessment and of the use of their powers under the Act for the recovery of their dues should be impressed on all Committees.

4. The total expenditure during the year under report was

Rs. 7,60,659 as compared with Rs. 8,83,945 during 1934-35.

Expenditure. The decrease is spread over all the various heads of expenditure and is due to the reasons already indicated in the preceding paragraph. As many as 37 of the Town Committees spent nothing on Education and only 27 of them spent Rs. 1,000 or above under that head. The district reports show that where funds are available the Committees spend them fairly on the various objects specified in the Act, but most of the smaller Committees suffer from lack of funds and are to that extent unable to make any improvements. The average elector has yet to be educated in self-help and co-operation and timidity on the part of elected members to raise revenue by taxation for the various services continues. The defect is inherent in the electoral system and it is hoped that with the spread of education and official guidance matters will improve, though slowly.

5. As usual, little interference by the Deputy Commissioners was

found necessary in the affairs of the Committees. One resolution of the Sohna Com-

mittee (Gurgaon) and two resolutions of the Budhlada Committee (Hisar) had to be suspended by the Deputy Commissioners concerned under section 47 of the Act. The Deputy Commissioner, Hoshiarpur had to use his emergency powers under the same section on two occasions : on one of these occasions he suspended a resolution of the Dasuha Town

Committee regarding the appointment of its Secretary. The Deputy Commissioner, Gurdaspur, had to order payment by the Qadian Committee of the grant-in-aid earned by the local school. The Deputy Commissioner, Sheikhpura, had to interfere under section 47 of the Act in connection with the leasing out of a lighting contract by the President of the Sangla Committee against the wishes of the Committee, and to enforce rule 40 of the general rules in one of the meetings of the Khangab Dogran Committee. Two resolutions of the Gujjar Khan Committee were suspended by the Deputy Commissioner, Rawalpindi, and the Deputy Commissioner, Shahpur, had to pass orders under section 48 of the Act, to enforce payment by the Sillanwali Town Committee of a fixed contribution to the District Board. The pay of the Secretary of the Kallurkot Committee was reduced at the instance of the Deputy Commissioner, for unsatisfactory work. The Deputy Commissioner, Lyallpur, had to order the removal by the Toba Tek Singh Committee of *malba* of a Ginning Factory from an area which had been improperly leased out by the Committee and also of the recovery by the Committee of water fees from their employees. Similarly, the Deputy Commissioner, Multan, had to pass an order under section 48 to enforce payment due to a contractor from the Jalalpur-Pirwala Committee, and another order for the revision by the Tulamba Committee of its Town rate assessment list.

In the Ambala Division 6 out of the 14 Town Committees were inspected by the district officers and another was inspected by the Examiner, Local Fund Accounts. In Jullundur all the Committees were inspected by the Deputy Commissioners or their assistants and in addition some were also inspected by the District Medical Officer of Health and Examiner, Local Fund Accounts. One Town Committee in the Amritsar District and 10 out of the 14 in the Sialkot District were not inspected by the Deputy Commissioners concerned in the Lahore Division. In the Rawalpindi Division all the 17 Town Committees were inspected by the Deputy Commissioners or their assistants. Fifteen Town Committees in the Multan Division were inspected by the Deputy Commissioners or their assistants and 7 by the Inspector of Local Bodies. The inspections had in many cases wholesome effects, while in others they are said to have served only to retard the deterioration in management of Committees.

6. The Commissioner, Multan Division, has referred to certain suggestions made by his Deputy Commissioners for the amendment of the Small Towns Act and rules thereunder. These points are being taken up separately.

General.

The position generally in the various Divisions has been summed up by the Commissioners and it may be of interest to refer to their opinions.

The Commissioner, Ambala Division (Mr. Hearn), remarks as under :—

“ If these Town Committees are to function reasonably well, it is essential that they should all receive the personal attention, if not of the Deputy Commissioner himself, at least of one of his gazetted officers, and it is therefore a matter for regret that of the fourteen Committees in the Division only six were inspected by an officer on the district staff and of these six only one by a Deputy Commissioner. The attention of Deputy Commissioners will be drawn to this. The Deputy Commissioner, Hissar, says that ‘ it can only be hoped that with education and experience the people will come to realise that if they want the advantage of paved streets, drainage, water supply, education and hospital facilities, they themselves must pay the cost’. This, however, they already realise and realising it they prefer to keep their money in their

pockets and, after all, it is their money. There is no doubt that a desire for cleanliness, etc., will accompany an expansion in education but it is to my mind hopeless to expect any community voluntarily to spend its money on amenities up to the standard of which it and particularly the female portion of it, has not been educated though doubtless something can be achieved through the advice of officers and others who take an interest in raising the standard of living in these towns."

Mr. Sheepshanks, Commissioner, Jullundur Division, states that :—

"The members of the Town Committees take very little interest in matters of public welfare and the struggle at elections is simply to achieve personal ends. Generally the Town Committees are unable to function without official control and guidance, and in view of the prevailing conditions it is idle to expect them to run their show independently. There is nothing in the district reports to indicate that there has been any marked improvement in the administration of the Town Committees."

The Commissioner, Lahore Division (Mr. Mitchell), has commented on the district reports of his Division in sufficient detail and concludes his own remarks as under :—

"On the whole the general result of the year's working appears to be much the same as in previous years and unless and until a better and more educated type of member, with more regard for the duties and responsibilities he is called upon to shoulder as a member, is elected to administer the affairs of Small Towns, the management and efficiency of these towns will continue to suffer. At the moment persons who stand for election do so more for personal reasons and for the sake of being looked up to as members, rather than from any sense of civic duty ; and until voters are made to realise that this class of person or the highest bidder is not the type to look after their welfare to the best advantage, there is small chance of an improvement in the tone of these Small Towns. On the other hand the members of the public too seem to be under the mistaken impression that they are entitled to everything that a Committee has to give and more without their having to contribute anything towards the Committee's resources. Members themselves are frequently defaulters. The consequence is that in the large majority of cases every form of evasion is the rule rather than the exception and it is with the greatest difficulty that rates and taxes are collected. The result is that arrears assume abnormal proportions and this spells stagnation in most cases and disaster in others. There is every force in the contention that there is little or no use in imposing fresh taxation in any form when the collection of rents and taxes already in force is so deplorably bad.

Until Town Committees realise their responsibilities and put their houses in order an optimistic view of the future is impossible."

Mr. Penny as Commissioner, Rawalpindi Division, commented on the work of the Town Committees of his Division in the following words :—

"The Small Towns of the Division present a depressing spectacle. They suffer from lack of funds and from inability or unwillingness to collect their dues and the consequence is that little or nothing is done to meet

sanitary and other requirements. This, as the Deputy Commissioner of Gujrat says, is largely due to the lack of education of Committee Members, but as the Deputy Commissioner of Attock remarks nothing else can be expected when the electors themselves prefer their present squalor with comparative freedom from taxation to a more efficient but unnecessarily more costly administration. In my opinion, the elective principle for which these Small Towns are mostly unfit is the chief obstacle to progress and a nominated Committee with an official element is the only agency likely to effect material improvements ”.

Commissioner, Multan Division (Mr. Salusbury), concludes his report as under :—

“ Paucity of funds continues to hamper fatally Small Town administration and the cause for this paucity of funds continues to be largely attributable to the electoral system. As the members depend on votes for their seats and the voters are for the most part ignorant and without proper appreciation of municipal amenities, votes are secured on promises of opposing taxation or any measures for which the voter may be called on to pay ”.

The Commissioners of Divisions have no doubt good reasons for their views. In spite of the best efforts of the local officers the working of the Small Towns system is not so good as it should be. Government, however, hope that with the expansion of education and guidance by the district officers and the Inspectors of Local Bodies in the two Divisions of the Province improvement will follow in due course of time.

Order.—Ordered that copies of this review be forwarded to all Commissioners of Divisions and Deputy Commissioners in the Punjab, and the Secretary to Government, Punjab, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India, Department of Education, Health and Lands.

Ordered also. that the review be published in the *Punjab Gazette* and that copies be supplied to Deputy Commissioners for the information of the Town Committees.

By order of the Punjab Government,
ABDUL HAQ,
Secretary to Government, Punjab,
Medical and Local Government Departments.

Abstract of Statements I and II of the Small Towns Returns for the year 1935-36.

I. Number of Small Towns	107
Population (Census of 1931)	469,653
Particulars regarding Presidents—					
Non-official	72
Official	31
